

# Detox Support

Daily Nutritional Support  
for Detoxification\*

Detox Support is a potent daily detoxification supplement containing patented Biofolate®, essential precursors, cofactors, herbal extracts and amino acids that support the liver and other vital organs involved in the detoxification process.♦

Over time, exposure to toxins can be detrimental to health and longevity.<sup>1,2,3</sup> As such, maintaining healthy liver function, and function of organs that detoxify the body, is crucial for ridding the body of noxious substances and metabolites.♦ Read on to learn how Detox Support can help do just that.

## How Detox Support Works

Studies show that plant extracts contained in Detox Support—such as green tea leaf, milk thistle seed, and pomegranate—contain phytonutrients and compounds that support healthy liver function.♦<sup>4,5,6</sup> The liver is a vital organ with many enzymes involved in removing toxic substances from the body; its primary job is to filter the blood coming from the gastrointestinal (GI) tract, before passing it to the rest of the body.

The liver is also responsible for metabolizing chemicals and drugs by changing them into substances that can be safely excreted. Not only does it inactivate or remove toxins that are ingested, but it extracts residues and metabolic waste material from the blood so that they can be excreted by the intestines or kidneys (either via urine or bowel movements).

Studies also show that the essential micronutrients, cofactors, and amino acids found in Detox Support work to support healthy immune function and support the activities of key liver enzymes involved in phase I and phase II detoxification pathways.♦<sup>7,8,9</sup>

## Detox Support Supplementation

Given the importance of proper liver function, as well as other organs that detoxify the body, Detox Support can benefit users in a variety of ways.

The most pertinent research-backed benefits of Detox Support may include:

- Support for healthy liver function and detoxification♦
- Support for healthy immune function♦
- Provides essential cofactors and patented Biofolate® to support detoxification pathways♦

Form: Capsules (42 or 126 count)

Serving Size: 2 Capsules

Ingredients	Amount	%DV	Ingredients	Amount	%DV
Vitamin A (from retinyl palmitate and 67% as beta carotene)	750 mcg RAE	83%	Molybdenum (from molybdenum aspartate)	66 mcg	147%
Vitamin C (ascorbic acid)	133 mg	148%	Artichoke Extract (leaf; <i>Cynara scolymus</i> ; standardized to 5% caffeic acid)	167 mg	**
Vitamin D (cholecalciferol)	0.82 mcg	4%	Watercress Concentrated Extract 4:1 (stem/leaf; <i>Nasturtium officinale R.</i> )	133 mg	**
Vitamin E (as d-alpha tocopheryl acid succinate)	44.9 mg	299%	L-Taurine	117 mg	**
Thiamin (from thiamin mononitrate; vitamin B1)	10 mg	833%	Sodium Sulfate	100 mg	**
Riboflavin (vitamin B2)	5 mg	385%	N-Acetyl L-Cysteine	67 mg	**
Niacin (as niacin and niacinamide; vitamin B3)	23 mg NE	144%	Milk Thistle Extract (seeds; <i>Silybum marianum</i> ; standardized to 80% silymarin)	50 mg	**
Vitamin B6 (as pyridoxine HCl)	17 mg	1,000%	Decaffeinated Green Tea Extract (leaf; <i>Camellia sinensis</i> ; standardized to 98% polyphenols, 75% catechins, and 45% EGCG)	56 mg	**
Folate [from calcium L-5-methyltetrahydrofolate (Biofolate®)]	268 mcg DFE	67%	Pomegranate Extract (whole fruit; <i>Punica granatum</i> ; standardized to 45.8 mg gallic acid equivalent)	114 mg	**
Vitamin B12 (as methylcobalamin)	33 mcg	1,375%			
Biotin (as d-biotin)	66 mcg	220%			
Pantothenic Acid (as d-calcium pantothenate; vitamin B5)	33 mg	660%			
Zinc (from zinc citrate)	6.5 mg	59%			
Selenium (from l-selenomethionine)	50 mcg	91%			
Copper (from cupric citrate)	650 mcg	72%			
Manganese (from manganese citrate)	1.65 mg	72%			

\* Percent Daily Values are based on a 2,000 calorie diet.  
\*\* Daily Value not established.

### Other Ingredients:

Hydroxypropyl methylcellulose, microcrystalline cellulose, silica, and vegetable magnesium stearate.

Biofolate® is a registered trademark of MTC Industries, Inc.

### Directions:

Take two capsules daily as a dietary supplement, or as directed by your healthcare practitioner.

**Caution:** If pregnant, nursing, or taking medication, consult your healthcare practitioner before use. Keep out of reach of children

**Warning:** Excess vitamin A intake may be toxic, may increase the risk of birth defects, and may contribute to osteoporosis. Pregnant women and women who may become pregnant should not exceed 3,000 mcg RAE (10,000 IU) of preformed vitamin A (retinyl palmitate) per day unless directed to do so by a healthcare practitioner.
