NutriDyn®

Nutritional Support for Inflammation and Your Health*

Proper nutrition plays a critical role in immune health, but it can be challenging to consume adequate nutrients through diet alone. Supplementation can help support a healthy diet through targeted nutrition.* Dynamic Inflamm-Eze and Inflamm-Eze Plus provide the nutrients you need to promote healthy inflammatory markers.*

- Are you looking for an effective way to support your overall health?*
- Are you getting all of the necessary daily micronutrients needed to properly support your immune system and gut health?*

Dynamic Inflamm-Eze

Dynamic Inflamm-Eze is for individuals looking to support healthy inflammatory markers through nutrition.* It is a plant-based protein powder full of vitamins, minerals, antioxidants, amino acids, and BCAAs. The formula is a balanced ratio of protein, carbohydrates, and fats for optimal support of macro- and micro-nutrients.*

Inflamm-Eze Plus

Inflamm-Eze Plus combines potent herbal extracts from Ayurvedic practices with xanthohumol from the female hops flower along with a proprietary blend to promote healthy inflammatory markers in the body.* The formula is a rich source of phytochemicals that act as free radical scavengers to promote healthy cell reactions to oxidative stress.*
