

Reaching New Heights

NutriDyn®

Nutritional Support for Your Performance Health*

After exercising, the body goes through a variety of metabolic changes and physiological processes. The body needs micronutrient support for healthy repair and recovery and balanced electrolytes for healthy cellular physiology.* Dynamic Hydrate and Dynamic Performance Drink use clinically validated and highly bioavailable patented premium ingredients to support your performance health pre- and post-workout.*

- Are you looking for an effective way to support your exercise performance goals and stay hydrated with balanced electrolytes?*
- Are you getting all the necessary nutrients to promote muscle repair and recovery while supporting energy metabolism?*

Dynamic Hydrate

When you sweat during exercise, become overheated doing everyday tasks, or feel exhausted, fluids and electrolytes can become off-balanced. More often than not, the problem is poor fluid and electrolyte balance. Dynamic Hydrate provides the most bioavailable solution for promoting fluid and electrolyte balance for optimal athletic performance and supporting daily hydration needs for overall health and well-being.*

Dynamic Performance Drink

Dynamic Performance Drink is a great tasting drink mix formulated to support muscle repair and reduce delayed onset muscle soreness when taken before and after working out.* Each scoop of Dynamic Performance Drink contains a wide range of B vitamins, minerals, amino acids, BCAAs, and additional nutrients to support athletic performance, promote muscle repair, and support recovery.*
