NutriDyn®

Nutritional Support for Cardiovascular Health*

Support cardiovascular health with Cardio Essentials Cholestin Support and Dynamic Cardio Flow, two innovative formulas providing sustained-release nutrients to support the cardiovascular system and healthy cholesterol levels already in the normal range.*

- Are you looking for an effective way to support healthy cholesterol and blood lipid levels already in the normal range?*
- Are you currently receiving the benefits of sustained-release nutrients that promote healthy inflammatory markers?*

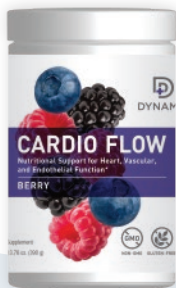

Cardio Essentials Cholestin Support

Cardio Essentials Cholestin Support is formulated with sustained-release nutrients that help impede the absorption of dietary cholesterol and cholesterol produced in the liver.* Each of the individual ingredients has been clinically validated to support healthy cholesterol levels already in the normal range through natural physiological processes.*

Dynamic Cardio Flow

Dynamic Cardio Flow provides targeted support for healthy endothelial function and cardiovascular health.* The formula helps support healthy folate function, promotes healthy inflammatory markers in the endothelium, and supports healthy blood pressure already in a normal range by promoting healthy vasodilation.*
