NutriDyn™

Nutritional Support for Healthy Immune Response to Environmental and Food Insults*

Healthy respiratory and digestive function is key to supporting a positive immune response to environmental and food insults. NutriDyn offers comprehensive, evidence-based formulas that provide support from environmental insults and digestive enzymes that promote proper nutrient absorption related to food insults.*

Benefits of These Products Include:

- *Supports healthy immune function**
- *Supports healthy nasal and sinus functions**
- *Supports healthy respiratory function**
- *Supports the digestion and absorption of proteins, fats, and carbohydrates**
- *Supports healthy inflammatory response**
- *Supports healthy oxidative stress**
- *Bioavailable ingredients for maximal absorption**

Aller Pro

Aller Pro is a nutritional supplement with immune-supporting properties featuring evidence-based micronutrients, proteases, amino acids, and flavonoids that encourage healthy respiratory, nasal, and sinus functions.* Backed by a myriad of clinical studies, the ingredients in Aller Pro support healthy respiratory and immune responses to environmental insults.*

NutraZyme

NutraZyme is a daily supplement containing digestive enzymes (lipase, amylase, and protease) that synergistically break down proteins, fats, and carbohydrates helping the body to absorb nutrients efficiently.* Research shows that food allergies are the result of partially undigested proteins causing allergic reactions. Supplementing with NutraZyme, supports healthy inflammatory responses to food insults.*
