

**Memories
are forever**

NutriDyn™

Nutritional Support for Cognitive Health*

Diet, lifestyle, and stress all contribute to cognitive health including memory and learning capacity. NutriDyn offers comprehensive, evidence-based formulas to provide nutritional support and help promote neurological and cognitive health.*

- Are you looking for evidence-based formulas that promote cognitive health?*
- Are you getting the right nutrients specifically designed to support cognitive health?*

Dynamic Brain Restore Powder

Dynamic Brain Restore Powder supports cerebral and nervous system function for proper DNA maintenance, energy production, and amino acid metabolism.* The formula assists in the production of neurotransmitters and supports mitochondrial function to support cognition and learning capacity.*

Magtein®

Magtein is a unique, patented form of magnesium to support memory, alleviate anxiety, and promote cognitive health.* Magtein is the only form of magnesium shown to cross the blood-brain barrier to increase magnesium concentration in the brain and nourish the synapses.*

Brain Support

Brain Support is a comprehensive cognitive and neurological formula containing patented, bioactive plant extracts to promote and support neurotransmitters in the central nervous system.* Brain Support promotes healthy oxidative stress response and supports neurons in their fight against free radicals.*
