

Target Immunity at the Source

with Advanced GI Support

Fortify your gut health today, and
empower your immune system for a
stronger, healthier tomorrow!
Talk to your practitioner to learn more.

Your gut health is the foundation of a strong immune system. Did you know that nearly 70% of your body's immune cells live in your gut?

Our immune defenses can weaken as we age, leaving us more vulnerable to illness and fatigue. But there's good news! Our carefully curated lineup works to promote gut integrity, boost immune function, and optimize nutrient absorption.♦

GI Integrity: Supports gut lining, healthy digestion, and immune function. Helps absorb nutrients effectively, promoting digestive comfort and well-being.♦

GI Defend: Featuring ImmunoLin®, it binds harmful toxins, supports gut barrier function, and promotes a healthy balance in the digestive system and immune health.♦

GI Restore: Combines amino acids, prebiotics, and antioxidants to maintain a balanced gut environment. Supports digestion, immune response, and nutrient absorption for gut wellness.♦

UltraBiotic Prebiotic: Powered by prebiotic fibers and fruit extracts, it nourishes good bacteria, supports a healthy microbiome, and enhances digestive and immune health.♦
